

Forest Ropes Course

Our Forest Ropes Course has been specially designed for fun and excitement.

Highlights:

We offer multitude of elements and courses to suit all age group and all levels of physical fitness including those with disabilities. Ropes Adventure will give you a better place to enjoy the leisure and admire the tree tops views. Safe family challenges for all ages and thrill levels

Requirements:

The proposed site has vehicle access to get a work van close to the Ropes Course.
The trees are no less than 300mm in diameter at the highest point of the activity.

Layout and Design:

More than 40 climbing elements – including slides, wobbling bridges, nets and tunnels
Continuous suspended cable safety system
Multiple levels of height and difficulty

Construction:

Platforms & connecting are built a minimum of 1 meter off the ground
Platform and element are constructed to minimize damage and environmental impact
Platform and cables are secured around the circumference of trees in such way to avoid harm and can be adjusted or dismantled easily.
